Profile

Dynamic and results-oriented Full Stack Developer with a strong foundation in computer science and two years of hands-on experience in building robust web applications. Passionate about utilizing cutting-edge technologies to deliver innovative solutions that exceed client expectations.

Experience

FULLSTACK DEVELOPER | LUCY CUSTOMS CLEARANCE | OCTOBER 2021 - July2023

- Designed and developed responsive web applications from scratch using modern frontend frameworks such as React.js.
 - * Implemented RESTful APIs and integrated with backend services to facilitate seamless data exchange between client and server.
 - * Utilized Node.js for server-side development, creating scalable and efficient backend systems. Collaborated with cross-functional teams including designers and product managers to deliver high-quality software solutions within project timelines.
 - * Conducted code reviews and performed unit testing to ensure code quality and maintainability. Optimized application performance through performance profiling and code refactoring techniques.
 - * Actively participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospective meetings. Contributed to the development of internal tools and libraries to streamline development processes and improve team productivity.
-

FRONT_END DEVELOPER | Jedan-Technology | OCTOBER 2023- july 2024

- Designed and developed responsive web applications using HTML5, CSS3, and JavaScript.
 - Implemented frontend logic and user interactions using React.js, enhancing user experience and interface responsiveness.
 - Collaborated closely with UI/UX designers to translate design mockups into functional frontend code, ensuring pixel-perfect implementation.
 - Integrated RESTful APIs with frontend components to enable seamless data exchange between client and server.
 - Conducted code reviews and participated in Agile ceremonies to maintain code quality and ensure project alignment with business objectives.
 - Utilized Git for version control and collaborated with backend developers to integrate frontend and backend systems effectively.

Education

BACHELOR OF SCIENCE IN COMPUTER SCIENCE | SEPTEMBER 2021 | ADMAS UNIVERISTY

Relevant Coursework

Data Structures and Algorithms

Object-Oriented Programming

Web Development

Database Systems

Software Engineering

Skills & Abilities

- * Programming Languages: JavaScript (Node.js, React.js, Angular), HTML5, CSS3, Python, Java.
- * Database Technologies: MySQL, MongoDB.
- * Web Technologies: RESTful APIs, AJAX, JSON, XML.
- * Version Control: Git, GitHub.
- * Development Tools: Visual Studio Code, IntelliJ IDEA, Eclipse.
- * Operating Systems: Windows, macOS, Linux.
- * Agile Methodologies: Scrum, Kanban.
- * Problem-Solving Skills and Debugging Techniques
- * Strong Communication and Collaboration Abilities
